

10 August 2017

Dear Adrian & Kaycey,

This letter is a testimonial to you and your business in recognition for always doing a fantastic job and having happy clients!

We are more than happy with iConstruct Electrical Services!!

Not only is Adrian and the staff reliable, but they also respect our business by happily working with our clients. We are always getting praises from clients regarding the team and the work they do.

Adrian & the team can always be relied upon to deliver a professional service in a friendly supportive manner, they liaise with us and our clients to offer the best advice in order to undertake a task. They are always on hand at the end of the phone and their work is always of exceptional standard. Adrian & the team are always very tidy and clean up after themselves whenever they do a job.

There is no job to big or small for this company to undertake and they are always willing to visit sites immediately if any emergency arises.

It is with every confidence and without hesitation that I would have no reservations at all in recommending iConstruct Electrical Services for both electrical installations and repairs.

Kind Regards,

Michelle Chick
